WORKED WITH DUBLIN'S LOCAL
AUTHORITIES TO PREPARE 4 DRAFT
CLIMATE CHANGE ACTION PLANS

"2017 was another busy year for Codema, with climate change at the forefront of our operations, as we prepare for the publication of the Dublin Local Authorities' Climate Change Action Plans next year. With another 4 local authority projects lined up for 2018, we will continue to help the DLAs implement Energy Performance Contracting in their buildings. We will also progress our work on district heating and help deliver a low-carbon heat solution for the Dublin City and South Dublin regions."

Gerry Wardell, Director, Codema
